

Strengthening the UK operational response to organised immigration crime

Pursue

We will strengthen coordination and oversight of operational and investigative activity across policing.

- ▶ Coordinate national activity through Pursue Board, increasing accountability and focus on priority OIC and SB linked networks.
- ▶ Establish and oversee a Silver Command Cell to support national tasking and operational intensification.
- ▶ Commission and resource targeted enforcement activity prioritising SB networks and financial services including grey economy.

Outcome: Improved national coordination, clearer prioritisation, and a sustained policing footprint across priority OIC threats.

Prevent

We will use intelligence and insight to deter and disrupt OIC, including small boat (SB) facilitation.

- ▶ Drive and increase migrant debriefing to generate actionable intelligence on SB facilitators and UK pull factors.
- ▶ Produce analytical products to identify trends, drivers, and early disruption opportunities, including SB linked networks.
- ▶ Deliver coordinated national communication and engagement aligned to SB prevention.

Outcome: Enhanced understanding of OIC drivers and earlier intervention opportunities, including those linked to SB activity.

Protect

We will strengthen community safety and raise visibility of SB related risks.

- ▶ Build practitioner capability and awareness through the Knowledge Hub and Training Academy, including OIC legislation and powers.
- ▶ Work collaboratively with partners to identify, assess and manage risk posed by OIC offenders.
- ▶ Embed risk and threat awareness messaging across policing activity to support sustained public protection at the border and within communities.

Outcome: Stronger community resilience and improved management of OIC related risk.

Prepare

We will strengthen readiness and resilience to respond effectively to SB enabled OIC.

- ▶ Implement national recommendations and best practice guidance to improve consistency and effectiveness.
- ▶ Embed clear governance, tasking and reporting mechanisms for SB priority activity.
- ▶ Support the reasonable use and oversight of emerging capabilities and technology to strengthen the UK border.

Outcome: A coordinated, consistent and resilient national policing response to OIC.
